

90 Years of ADE

ADE's journey began as a factory for precision weighing scales and slicing machines – right in the heart of St. Pauli, Hamburg, during eventful times. Shop owners and merchants would come and go, and customer service was always a top priority.

Since 1935, ADE has stood for outstanding precision and innovation. Over the past nine decades, our company has continuously evolved and is now an internationally recognised partner in the hospitality, gastronomy, medical, and retail sectors. Our diverse product range includes high-precision scales, premium kitchen appliances, reliable measuring instruments, modern weather stations, and innovative everyday essentials.

Thanks to the loyalty of our customers and partners, we have been able to constantly research and develop to offer products of the highest quality and reliability. Our passion for craftsmanship and perfection, combined with expertise in product management and development built over the last two decades, has made ADE a trusted name worldwide – both online and in retail stores. Over 90 years, we have not only created products that make everyday life easier but also established lasting partnerships that actively shape the market.

Our 90th anniversary is an opportunity to honour our tradition while looking to the future. We focus on sustainability, smart features, modern design, and maximum user comfort. This year, we hence proudly present our latest innovations: The INES body analyser scale – recently crowned as the Stiftung Warentest winner. A world first – a digital bathroom scale with an external wireless display, which transforms into a clock with room temperature and hygrometer when not in use. A smart mini chopper – cordless, versatile, and perfect for both the kitchen and travel. And a new, exclusive range of meat thermometers – designed in Hamburg. These and many other product highlights are showcased in the following pages.

With the same enthusiasm and dedication that has driven us since our founding, we will continue to develop innovative solutions and ensure the highest quality standards. ADE – A Partner for Stability and Innovation.

FORGING THE FUTURE TOGETHER.

ADE

Powerful, easy to use, and versatile – perfect for everyday kitchen tasks. Get your kitchen work done in record time!

KA1802

FAST, PRECISE, VERSATILE – THE ELECTRIC KITCHEN GRATER BY ADE

A bestseller in Germany and across Europe – both online and in stores! From finely grated Parmesan to crunchy vegetables in seconds – this kitchen grater makes it possible! With 200 watts of power, the KA1802 by ADE slices, chops, grates, and shreds fruit, vegetables, nuts, and hard cheese – electrically and in no time at all.

- > **Four extra-sharp stainless steel drums** – For coarse or fine results, dishwasher safe.
- > **Multifunctional** – Perfect as a vegetable and apple grater, Parmesan grater, breadcrumb maker, or chocolate grater.
- > **Easy operation** – Bayonet lock for simple attachment changes, non-slip base with rubberised feet.
- > **Clean & efficient** – Angled chute ensures ingredients fall directly into the bowl.
- > **Compact & convenient** – Built-in cable storage, compact dimensions (20.5 x 15 x 28.3 cm), and a sturdy 1.48 kg weight.

KG2426-1

KE2301 TESSA

THE NEXT GENERATION OF KITCHEN SCALES – PRECISE, SUSTAINABLE & ALWAYS READY

Cook and bake with precision – completely battery-free! The TESSA digital kitchen scale by ADE combines innovative technology with a sustainable design, setting new standards in eco-friendly kitchen appliances.

- > **No more battery changes** – Conveniently rechargeable via USB-C cable (included) and fully functional while charging.
- > **Sustainably produced** – Housing made from 99% recycled plastic, packaged plastic-free.
- > **Powerful & precise** – Weighs up to 15 kg in 1 g increments – ideal for every recipe.
- > **Flexible & versatile** – Switchable units (g, lb:oz, ml, fl:oz) for unlimited cooking and baking possibilities.
- > **Magic Display** – Illuminated digits for excellent readability from any angle.
- > **User-friendly functions** – Auto-hold, tare function, and automatic shut-off for effortless operation.

KE2354 ISABELLA

PRECISION ON TWO LEVELS – THE DUAL KITCHEN SCALE FOR AMBITIOUS COOKING & BAKING

Whether delicate amounts or large ingredients, the ISABELLA dual digital kitchen scale by ADE is the perfect assistant for precise weighing in the kitchen. Thanks to two separate weighing platforms, different ingredients can be measured simultaneously and independently.

- > **Two scales in one** – Large platform up to 5 kg (1 g increments) & precision platform up to 500 g (0.1 g increments) – ideal for yeast, sourdough, coffee beans, spices, or supplements.
- > **Simultaneous weighing** – Easy-to-read dual-line LED display shows both weights at the same time in bright digits.
- > **Versatile units** – Large platform: g, kg, oz, lb:oz, ml, fl:oz / Precision platform: g, oz, ml, fl:oz.
- > **Durable & hygienic** – Polished stainless steel surface, easy to clean – perfect for bread baking.
- > **Practical functions** – Extended auto-off time (2 min.), independent tare function for both platforms, battery status & overload indicator.

Perfect for those who value precision, versatility, and convenience. Discover it now and start weighing with accuracy!

BA2300-1 | -2 INES

TEST WINNER 2024: THE BODY ANALYSER SCALE THAT COMBINES PRECISION & DESIGN

The INES body analyser scale by ADE sets new standards in precision and technology – and it comes highly awarded! Stiftung Warentest named it the test winner in October 2024 among body analyser scales. Perfect for health-conscious individuals and fitness enthusiasts, it provides reliable measurements and valuable insights into body composition.

- > **High-precision measurements** – Four sensors ensure accurate results up to 200 kg, with 100 g and 0.1% increments.
- > **7 key body metrics** – In addition to weight, INES analyses muscle mass, body water, body fat, bone mass, calorie needs (BMR), and BMI – for comprehensive health tracking.
- > **Smart memory function** – Stores individual data for up to 10 users, with automatic user recognition.
- > **Modern, compact design** – High-quality safety glass, non-slip feet, and a large, easy-to-read display ensure comfortable use.

INES – the smart choice for anyone who wants to keep track of their health. Discover the test winner now!

The smart scale for anyone who wants to keep track of their body values – precise, clear, and innovative!

BA2500-1 EMMY

BODY ANALYSER SCALE WITH ALL VALUES AT A GLANCE

Maximum precision and smart features for a complete body profile! The EMMY body analyser scale by ADE goes beyond just measuring weight – it provides detailed health insights. All results are displayed at once, making it ideal for anyone who wants to stay on top of their fitness.

- > **Large, full-colour VA display (78 x 97 mm)** – Clear, easy-to-read, and simultaneous display of all values.
- > **ITO glass technology** – High-quality surface for precise and effortless weighing, combined with a sleek design.
- > **Comprehensive body analysis** – Measures body fat, water percentage, muscle & bone mass, plus BMI & calorie needs (BMR) for optimal health assessment.
- > **Body age analysis** – A unique feature for better insight into your fitness level.
- > **Exceptional accuracy** – Weight measured in 50 g increments, with a capacity of up to 200 kg. Also functions as a standard scale for versatile needs.
- > **Memory for up to 8 users** – With automatic user recognition for personalised tracking.

BE2500-1 | -2 RONJA

WORLD FIRST: PRECISION WEIGHING WITH AN EXTERNAL DISPLAY

No more bending down or struggling with hard-to-read displays! The RONJA digital bathroom scale by ADE revolutionises weighing with a wireless external display and versatile additional functions.

- > **Wireless connection** – Maximum flexibility thanks to seamless wireless communication between the scale and display.
- > **5-in-1 everyday assistant** – Displays weight, time, room temperature, humidity & date. When not in use, the external display transforms into a clock with date, thermometer, and hygrometer.
- > **Accurate weight measurement** – Automatic reading upon stepping on the scale with instant switch between weight and time. Capacity: 180 kg, measured in 100 g increments.
- > **Clear LCD display (127 x 54 mm)** – Backlit for optimal readability in all lighting conditions.
- > **Flexible placement** – Fold-out stand & wall mounting option for personalised display positioning.
- > **Easy setup & intuitive operation** – Automatic connection between scale and display.

The perfect combination of design, comfort, and innovative technology – for a smarter weighing experience!

Perfect for everyday use – reliable, maintenance-free, and always ready to go!

BM2500-1 ALMA

RELIABLE WEIGHING – NO BATTERY, NO WORRIES

The ALMA mechanical personal scale by ADE impresses with its robust design and easy handling – delivering precise measurements without the need for batteries!

- > **Durable metal housing** – Long-lasting and high-quality construction. Capacity: 150 kg.
- > **Wide, non-slip weighing platform** – Ensures a stable stance for accurate and comfortable weighing.
- > **Large full-view display** – Clear, easy-to-read scale for optimal visibility. Graduation: 1 kg increments.
- > **Manual zero adjustment** – Simple calibration for consistently precise results.

ADE

Convenient, stylish, and always precise – the perfect companion for home and on the go!

CK2306

MAXIMUM CLARITY, MINIMAL EFFORT – THE DIGITAL RADIO-CONTROLLED ALARM CLOCK FOR ANY SITUATION

An alarm clock that does more than just wake you up! The ADE digital radio-controlled alarm clock ensures optimal readability at any time of day – thanks to large, clear digits that are perfectly visible from any angle. Never oversleep or miss an appointment again!

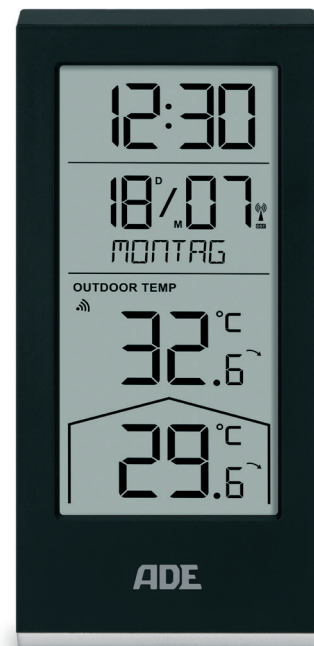

- > **More than just the time** – Also displays temperature, weekday, and calendar.
- > **Gentle wake-up** – Features a snooze function and an alarm that gradually increases in speed.
- > **Precise & reliable** – DCF radio signal for automatic time setting, with no annoying ticking.
- > **Ready for any location** – Compact (10 x 6.2 x 4 cm), with a hanging loop and non-slip silicone strips.
- > **Flexible & portable** – Battery-operated (2x AAA, included), perfect for the bedside table, wall, or travel.

WS2324

PRECISE TEMPERATURE MONITORING – WIRELESS THERMOMETER WITH OUTDOOR SENSOR BY ADE

Perfect control of indoor and outdoor temperatures – with a trend display & radio-controlled clock for reliable weather observation. Designed in Hamburg!

- > **Dual temperature measurement** – Monitors indoor & outdoor temperatures with a useful trend display.
- > **Integrated radio-controlled clock & calendar** – Displays time in 12- or 24-hour format, with fully written-out weekday for better clarity.
- > **Easy-to-read display** – Large, high-visibility digits, readable even from an angle.
- > **Simple operation** – Only four buttons on the back for intuitive handling.
- > **Flexible outdoor sensor** – Splash-proof, suitable for standing or wall mounting – ideal for the garden, balcony, or indoors.
- > **Practical extras** – Stores minimum & maximum temperatures to track fluctuations over time.
- > **Compact & elegant** – With dimensions of 13.5 x 6.3 x 5 cm, a space-saving and stylish addition to any home. **The protected design was created by ADE in Hamburg!**

Whether as a practical everyday helper or a thoughtful gift – this wireless thermometer offers top precision and comfort!

LG2400-1 SET

WIRELESS TABLE & BOTTLE LAMP – FLEXIBLE LIGHTING FOR INDOORS & OUTDOORS

Create the perfect atmosphere on your balcony, in the garden, or at a summer party – this rechargeable LED lamp by ADE provides the right light anywhere!

- > **Three light colours & stepless dimming** – Choose between warm white, cool white & neutral white, with memory function to save your last setting.
- > **Splash-proof (IP44)** – Ideal for outdoor use, with a non-slip base for secure placement.
- > **Powerful battery** – Provides up to 12 hours of light and recharges in 2.5–3 hours via USB-C.
- > **Versatile use** – Comes with a bottle adapter for glass & wine bottles (up to 30 mm diameter) – perfect for stylish table lighting.
- > **Adjustable height** – Modular poles (1 x 11 cm, 2 x 15 cm) allow for four different height settings, with seamless transitions for an elegant look on any table.

Whether as ambient table lighting or subtle floor illumination, this lamp is a true all-rounder for any occasion! Discover it now and light up your space with style!
